KUBOTA POWER UNIT SPECIFICATIONS

Model:	D1005E3BHYDES
HP Rating:	22.65 HP @ 3000 RPM
Radiator:	Engine mounted radiator, coolant recovery tank
Air Cleaner:	Engine mounted dry air cleaner , stainless steel manual air intake shutdown, 6ft. pull calbe
Muffler:	Low tone muffler, spark arrestor
Fuel Filter:	Mounted spin on fuel filter assy,
Mount Feet:	Structural steel mounting feet
Flywheel Power Take Off:	Hydraulic pump adaptro SAE B pilot 5/8" keyed hub
Engine Controls:	F.W. Murphy weatherproof engine control panel with mechanical hi temp and low oil shutdown, oil pressure gauge, water temp gauge magnetic switch, key switch, 4ft loomed wire harness
Accessories:	Mounted 6ft. micro speed control cable, fueled, servcied and tested
Summary:	This engine is assembled for hydraulic pump application. It is electric start and has mechanical engine controls including spark arresting muffler and manual air intake shutdown
