KUBOTA POWER UNIT SPECIFICATIONS

Model:	D1105E3BHYDES
HP Rating:	24.79 HP @ 3000 RPM
Radiator:	Mounted radiator, coolant recovery tank
Air Cleaner:	Mounted dry air cleaner, stainless steel manual air intake shutdown, 6ft pull cable
Muffler:	Mounted muffler, spark arrestor
Fuel Filter:	Mounted spin on fuel filter assy
Mount Feet:	Structural steel mounting feet
Flywheel Power Take Off:	Hydraulic pump adaptor SAE B pilot 5/8" keyed hub
Engine Controls:	12 volt electric start, F.W. Murphy hi temp and low oil shutdown, key switch, magnetic switch, alternator light, hour meter, 6ft micro speed control cable
Accessories:	EZ oil drain valve
Summary:	This engine is assembled for hydraulic pump application. It is electric start and has spark arrestor and manual air intake shutdown.
