KUBOTA POWER UNIT SPECIFICATIONS

Model:	V3600TE3BCPTOES
HP Rating:	84.42 HP @ 2600 RPM
Radiator:	Mounted radiator, coolant recovery tank
Air Cleaner:	Mounted air cleaner, stainless steel manual air intake shutdown, 6ft pull cable
Muffler:	Mounted vertical muffler, spark arrestor
Fuel Filter:	Mounted spin on fuel filter assy
Mount Feet:	Structural steel mounting feet
Flywheel Power Take Off:	Mounted clutch power take off
Engine Controls:	F.W. Murphy weatherproof engine controls with hi temp and low oil shutdown, oil pressure gauge, water temp gauge, magnetic switch, key switch, alternator light, hour meter, 6ft micor speed control cable
Accessories:	Epoxy coated, EZ oil drain valve
Summary:	This 12 volt electric start engine package is set up for clutch power take off. Applications include centrifugal pump, triplex pump, or compressor applications
