KUBOTA POWER UNIT SPECIFICATIONS

Model:	V3600E3BHYDASRP with auxiliary hydraulic pump
HP Rating:	66.74 HP @ 2600 RPM
Radiator:	Mounted radiator, coolant recovery tank
Air Cleaner:	Mounted air cleaner, Chalwyn auto/manual air intake shutdown, 6ft pull cable
Muffler:	Mounted verticle muffler, spark arrestor
Fuel Filter:	Mounted spin on fuel filter assy
Mount Feet:	Structural steel mounting feet
Flywheel Power Take Off:	Mounted hydraulic pump adaptor SAE 2B 7/8 13T spline
Engine Controls:	Air start, idler pulley assy, Sentinel mechanical hi temp and low oil shutdown, flame resistant fuel and oil hoses, JIC fuel and oil fittings, 6ft micro speed control cable, 6ft micro engine shutdown cable,
Accessories:	Mounted auxiliary hydraulic gear pump mounted on gear end rated 4 GPM @ 2000 PSI
Summary:	This air start engine package is set up for hydraulic pump application. It is offshore rated for Class 1 Div 2 hazardous locations. The auxiliary hydraulic is for secondary hydraulic functions.
