KUBOTA POWER UNIT SPECIFICATIONS

Model:	V3600TE3BCPOTASR
HP Rating:	84.42 HP @ 2600 RPM
Radiator:	Engine mounted radiator / Coolant recovery tank
Air Cleaner:	Engine mounted dry air cleaner
Muffler:	Donaldson low tone muffler / Super Trapp spark arrestor
Fuel Filter:	Mounted spin on fuel filter / JIC fittings on supply and return lines
Mount Feet:	Structural steel mounting feet
Flywheel Power Take Off:	Clutch Power Take Off
Engine Controls:	Air Starter / Idler pulley assy / Sentinel mechanical shutdown system Hi temp and low oil shutdown
Accessories:	Mounted 6ft. Engine shutdown cable / EZ oil drain valve JIC fittings on all fuel and oil hoses / Flame resistant fuel and oil hoses Oil pressure and Water temp gauge panel
Summary:	This engine is rated Class 1 Div II and meets current USCG. It is assembled for hazardous pump application including fuel / oil transfer, dewatering. This engine build can also be used for Generator / HPU / Triplex Pump / Compressor applications
