KUBOTA POWER UNIT SPECIFICATIONS

Model:	V3307DITE3BHYDESC
HP Rating:	74HP @ 2600 RPM
Radiator:	Mounted Radiator, coolant recovery tank
Air Cleaner:	Mounted air cleaner, Chalwyn auto/manual air intake shutdown, 6ft pull cable
Muffler:	Mounted low profile muffler, spark arrestor
Fuel Filter:	Mounted spin of fuel filter assy
Mount Feet:	Structural steel mounting feed, stable flex neoprene isolators
Flywheel Power Take Off:	Mounted hydraulic pump adapter, SAE 2B 7/8" 13T spline
Engine Controls:	F.W. Murphy weatherproof engine controls, hi temp and low oil shutdown, oil pressure gauge, water temp gauge, digital tach/hour meter, AC tap in alternator, magnetic switch, key switch, alternator light, 4ft loomed wire harness, 6ft micro speed control cable, 6ft engine shutdown cable
Accessories:	Stainless steel hardware, EZ oil drain
Summary:	This engine is assembled for hydraulic pump applications in hazardous locations. Spark arrestor, Chalwyn auto/manual ESD is standard equipment.
