

**OFFSHORE READY
DIESEL WATER BLASTER
5 GPM @ 10,000 PSI (cold water)**

SPECIFICATIONS

MODEL: KD1005BOE

ENGINE: Kubota Diesel Engine, liquid cooled, tier 3 certified, rated 51 hp @ 2800 rpm, mounted radiator, coolant recovery tank, air cleaner, manual air intake shutdown, muffler, spark arrestor, primary fuel filter, secondary fuel filter, clutch power take off, fuel stop solenoid, 2 year engine warranty

ENGINE CONTROLS: F.W. Murphy hi temp and low oil shutdown, magnetic switch, key switch, weatherproof instrument enclosure, shielded wiring harness, sealed connectors, 12 volt battery w/box and cables, CG approved 30 gallon aluminum fuel tank w/fuel gauge, electric fuel pump, (optional equipment / hour meter, air starter)

TRIPLEX PUMP: Triplex pump, 3 groove power ban belt drive, rated 5 gpm @ 10,000 psi, oil filled crankcase, 1 year pump warranty

PUMP COMPONENTS: Heavy duty balancing valve, pressure block, high pressure jumper hoses, 10 micron inlet water filter, crow foot water connection, high pressure safety relief valve, pressure gauge

SKID: Structural steel all welded galvanized skid, 4 corner lift, beveled drip pan w/ bottom drain, forklift pockets, hose rack, wand holder, radiator guard, vibration isolation plate, stableflex vibration mounts, assembled with stainless steel hardware

ACCESSORIES: Heavy duty trigger dump gun, 4 spray nozzles, nozzle holder, high pressure 50ft discharge hose w/ quick connects

DIMENSIONS / WEIGHT: L 72" x W 40" x H 50" / 1800 lbs. (dry)

SUMMARY: This diesel water blaster is designed for heavy duty Rental Offshore Applications. The skid provides protections to all components and allows for safe loading and unloading for transportation. The high quality components and attention to detail will give the user maximum durability.
