OFFSHORE READY 4 GPM @ 3000 PSI DIESEL PRESSURE WASHER

Model: KD3004GOE

Description: Diesel Powered Cold Water Pressure Washer

Engine: Kubota Diesel Engine rated 9.5 hp @ 3600 rpm, Engine supplied standard w/12 volt electric start, recoil hand start back up, 12 volt battery w/ box and cables, key switch mounted

Pump: Triplex Pump rated 4 gpm @ 3000 psi, Gear Reduction Drive, Inlet Mesh Filter

Skid: Structural Steel Type, Portable w/ 12" Pneumatic Tires, Galvanized, Drip pan, 4 Corner Lift Eyes, Vibration Isolators

Safety Features: Spark Arrestor, Manual Air Intake Shutdown, Thermo Pump Protector

Dimensions/Weight: L 41" x W 33" x H 33", 300 lbs (dry)

Warranty: 2 year engine, 1 year pump, 1 year accessories

Summary: The Kubota diesel engine is air/oil cooled. It runs cooler than most air cooled engines thus providing extended engine life. The engine is balanced producing vibration free operation. The oilfield skid design provides protection to the components and will withstand the harsh offshore environment. The large pneumatic tires and center point lift make the unit highly mobile and easy load/unload. The unit is designed for the safest possible operation in hazardous locations. The triplex pump has a oil filled crankcase for long life operation.
